Our Business

Dynamic Test Solutions (DTS) provides custom high performance tester interface hardware to a broad range of semiconductor automated test equipment (ATE) and laboratory board customers, including many in the Fortune 500.

DTS Business Model

- **Global Presence**, providing a single partner worldwide and delivering Asia cost advantages
- **Comprehensive Engineering Knowledge** of semiconductor applications and testing
- **Flexible Custom Solutions**, including complete turn-key alternatives

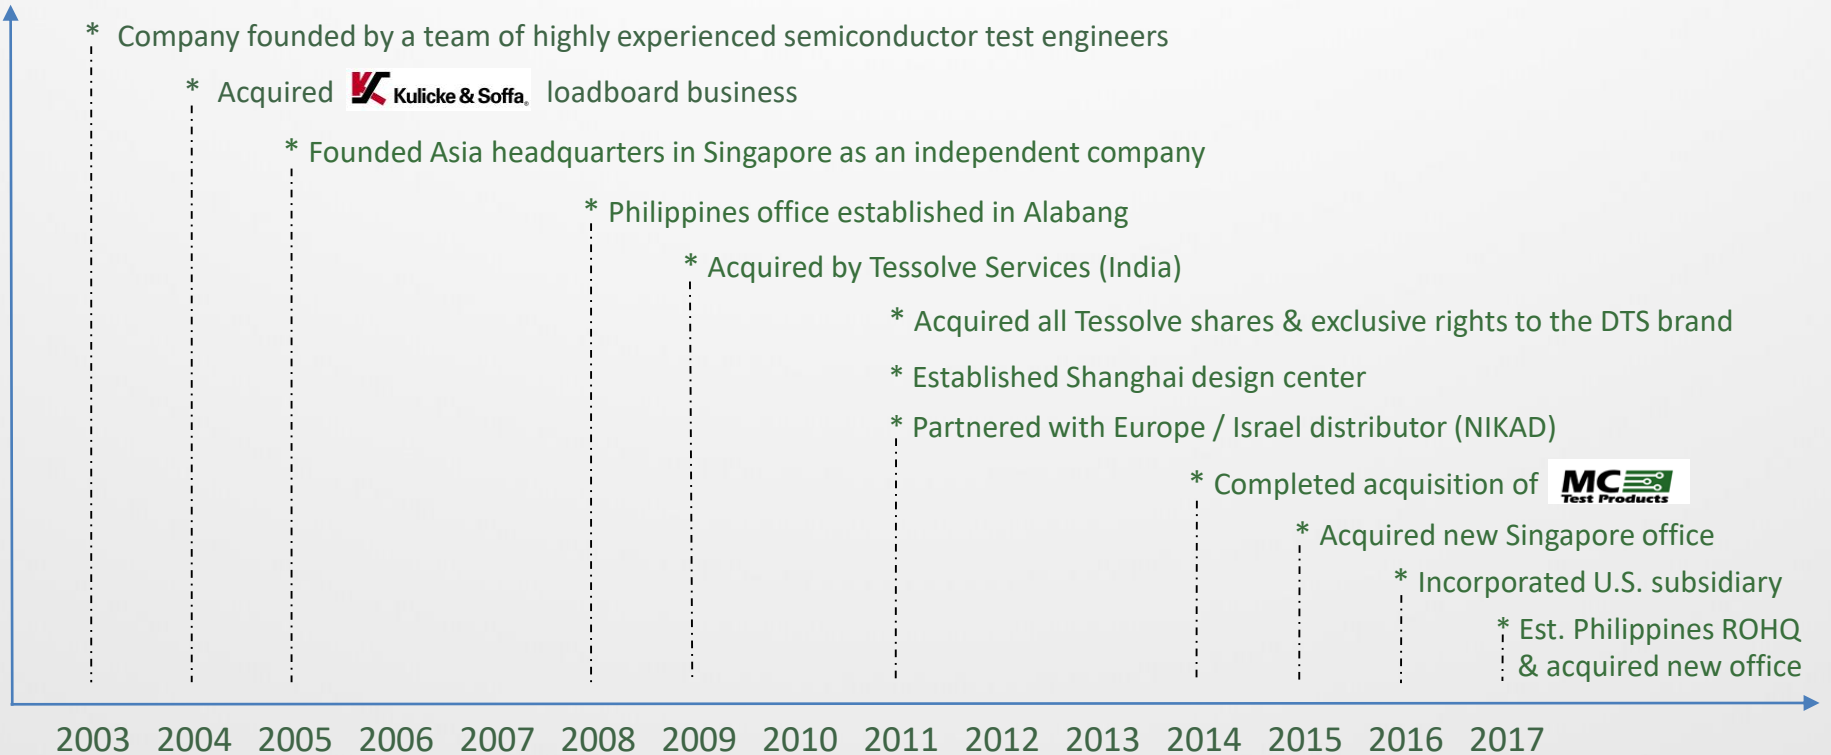

DTS Product Offerings

- Final test loadboards (DIB, DUT boards, HIB) & wafer test hardware (probe cards, PIB)
- Lab boards (FA, bench, design verification, reliability)
- Turn-key solutions (sockets, stiffeners, interfaces)

Our History

Quality

Industry leading quality is a key DTS differentiator. We emphasize quality throughout our entire process, from engineering engagement to customer support. We constantly improve ourselves by adapting to the latest cutting edge technologies.

We employ a comprehensive series of Quality Control procedures in every step of design and manufacturing. All DTS boards are fabricated in ISO9000 certified PCB fabrication facilities. We have a 100+ point quality checklist that is completed on every job. ***DTS stands behind its products and warrants all boards to be free of all defects for a period of 90 days after shipment!***

DTS is Where You Are!

Product Offerings (1 of 3)

Design

- Support Across All Design Software Platforms
- Template & BOM Creation
- Component / Symbol Creation (Librarian Services)
- Schematic Capture
- Component Placement
- Physical Routing
- Post Processing
- Design QC Services (DFM, DRC, Specification Validation)
- Fab Preparation
- Pre-Fab Stack Up

Product Offerings (2 of 3)

Fabrication

- Complete Turn-Key Services
- Service Across All Board Complexities
- U.S. and Asia Based Manufacturing
- In House Pre-Fab CAD / CAM and QC Processes
- Vendor Order Management
- Typical Cycle Times: 7-10 days (Expedite Options Available)

Assembly

- Component Sourcing and Procurement
- Both Hand & Automated Assembly
- Vendor Order Management
- Application Support
- Assembly Metrology Tools at All 3rd Party Assembly Partners

Product Offerings (3 of 3)

Bench & Characterization Boards

- Engineer, Design, Fabricate & Assemble Custom Boards for:
 - Device Characterization and Verification
 - Bench Testing
 - Failure Analysis
 - PXI/PXIe Interface Hardware
 - General Laboratory Use
- Dedicated Applications and Design Engineering Delivering Flexible Solutions, Short Lead Times and Excellent Quality
- Support for Product Transition from the Lab to Production Release
- Very Fast Growing and Strategic DTS Business Segment

Summary of Strengths

- Global Presence
- Comprehensive Semiconductor Test Knowledge
- Flexible Custom Solutions, Including Turn-Key
- Industry Leading Project Cycle Times
- Proven Track Record with Fortune 500 Customers
- Key Strategic Partnerships
- Cost Advantages by Leveraging a Strong Global Presence
- Ability to Enable Fast Capacity Ramp Ups for Customers
- Industry Leading 1st Pass Success Rate
